Scope

The 1st OnSea (EvolutiON of SEAsCapes) workshop aims at creating a forum regarding a range of thematic topics related to environmental changes of coastal areas and their relation with anthropogenic activities such as:

- Paleo-environmental reconstruction of coastal areas;
- Coastal geoarchaeology;
- Records of sea-level changes and paleo sea-level studies;
- Adaptation of coastal communities to climate and coastal changes;
- Use of new technologies in coastal studies;
- Interdisciplinary collaboration in coastal research.
